**PROMOTION OF WILLARD ELLIS.**

Everybody is glad when a "boy of the old home town" makes good elsewhere and so everybody in Ogden can rejoice at the promotion of Willard Ellis of Ogden to be president of the Federal Land bank at Berkeley, California.

Mr. Ellis has a responsible position, but he has the confidence of those who recommended him for the position and everybody feels that he will fill the duties of the bank executive in a most satisfactory manner.

**WHAT THE PEOPLE WANT.**

When Elihu Root, attorney for a New Jersey brewer, appeared in the United States supreme court to argue against the constitutionality of the eighteenth, or prohibition, amendment he told the supreme court judges the "fundamental character of this government" is involved in the decision on the amendment. Mr. Root declares that the amendment is new legislation "under the color of an amendment." He contends that if the amendment is held valid then the court by such decision will in effect recognize that there is an addition to the legislative power. Congress has legislative power and the state legislative power. Mr. Root contends that a decision in favor of the amendment will mean recognition of a third legislative power—enactment of legislation by consent of three-fourths of the states. This, he contends, would be a perversion of the constitution.

Mr. Root is a learned lawyer and this is a fine point. No doubt, the Supreme court will give weighty consideration to the contentions from such a lawyer as Mr. Root.

All this recalls that Mr. Root might also discuss what many others believe is a condition that should be remedied. We refer to the power of the supreme court to nullify legislation which the people have enacted through their representatives. Congress can pass a law for which there is great popular demand. The Supreme court can nullify it by declaring it unconstitutional.

**HOW'S YOUR BLOOD? Pimples and Eruptions Mean Bad Blood**

People who have impure or impoverished blood should be careful to take only a temperance remedy made of wild roots and barks, such as Doctor Pierce's Golden Medical Discovery is and has been for nearly 50 years. Ingredients printed on wrapper.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and many skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache.

Get Doctor Pierce's Golden Medical Discovery to-day at any medicine dealer, in tablet or liquid form, or send 30c. for trial package to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

OAKLAND, CALIF.—"A relative was poisoned, her blood turned to water; the doctors gave her up, said she could never be cured. She finally took Dr. Pierce's Golden Medical Discovery, and it cured her. I have had six operations, which left me in a nervous state, with loss of sleep and appetite. Doctor Pierce's Golden Medical Discovery and Pleasant Pellets cured me. I gained 30 pounds."—Mrs. MAE THURLOW, 4024 Sutter Street.

pass a law for which there is great popular demand. The Supreme court can nullify it by declaring it unconstitutional.

As long as there is a constitution there should be a body to interpret it, and quite often the Supreme court is a check which gives the nation a chance to take a sober second thought. But all this should be explained in an effort to satisfy those who contend that the court is more powerful than the people.

**WHAT WILL HAPPEN IN DENMARK?**

The world will watch with interest the developments in the little nation of Denmark, which is now excited from one end to the other because of the refusal of King Christian to heed the demands of the Socialists and Unions. The Socialists and Unions demand that the king revoke the dismissal of Premier Zable. The king refused and a general strike seems imminent.

Cries have been raised for the conversion of the government into a Republic and it is not improbable that

**UNION CARPENTERS TO RESUME WORK SOON**

**Wage Disagreement With the Building Contractors to be Settled by Board**

BUTTE, Mont., March 31.—An agreement whereby union carpenters of Butte, idle because of a wage disagreement with building contractors, would return to work next Monday and a permanent wage adjustment board would be formed comprising representatives of the union and the employers, has been accepted by the union and the Employers' association, it was announced here.

The agreement is to be submitted to the carpenters' union for ratification next Sunday. Union building operations here have been suspended for nearly two months.

STRIKE IN CHEYENNE. CHEYENNE, Wyo., March 31.—Union carpenters voted to reject compromise wage offers of building contractors and called a strike effective April 1 for an increase of \$2 a day to \$9. The contractors offered \$8. There are 125 union carpenters in Cheyenne. The strike, it was said, will affect 1,000 other union workmen employed in the building trades.

such a government will be established. Denmark seems to be ready for the change.

For years Denmark has had the record of being a nation without illiteracy. Compulsory education has brought about this desirable condition. The educational average, therefore, is high.

The little country's chief industry is agriculture but the farmers are highly organized into co-operative societies and these societies are powerful factors.

The workers in the industries of the cities, too, are well organized. The Socialists of Denmark have been growing in power for many years. With a few exceptions every male over the age of 36 years has the vote in Denmark.

King Christian seems to have kept his position on the throne more upon the toleration of the masses than upon his actual strength. This crisis may result in one more monarch being assigned to the role of has-been.

**SOUTH WASHINGTON SCHOOL**

The city board of education has decided to go ahead with plans for the construction of a new South Washington school building. This seems to be the proper step to take. When the board first received an estimate of the cost the members were staggered by the figures. It was decided to wait for lower prices. The belief was expressed that the peak had been reached. This was about a year ago. Now the board finds it costs several thousand dollars more to put up the building than it would have cost had the contract been let a year ago.

Plans for the structure call for what might be termed a two-unit school. One section is to include an auditorium and a gymnasium and the other section the class rooms. The board has \$250,000 for the structure. It proposes to spend this amount for the class-room section of the building and construct the gymnasium-auditorium section when conditions are more favorable.

The board is doing the right thing in taking steps to meet the demands of the growing school children. It is better that the necessary expenditure be made now than that school children should be overcrowded and otherwise handicapped for months while a hoped-for decrease in the price of building material arrives, especially when nobody has been able to hold out encouraging news as to this possible decrease.

Your grocer pays your money back if you'd rather have it than Schilling Tea. We pay him.

Perhaps you didn't get the right flavor of Schilling Tea. Get your money back and try again. Do this until you have found the kind you like best. There are four kinds of Schilling Tea.

Now please do this. We mean it—and so does your grocer.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

**Fashion Silhouette FOR SPRING**

A general survey of fashions designs for spring leaves two distinct impressions—youthfulness and diversity.

One of the first needs for the spring is the suit for street wear, and the newest models show short straight line jackets, some of them on the order of the old box jackets. Almost all jackets are open low down in front fastening with two or three buttons, and rolling shawl collars or notched collars with long, narrow revers form the favored neck finish. The skirts are frankly short, and suit skirts are as a rule plain, though for informal and sports wear a jacket of blue or brown tricotine may be combined with an accordion plaited or box plaited skirt of plaid in harmonizing tones.

It is hardly possible nowadays to get along with a suit only, as there are so many occasions when a suit seems to inform, and a dress must be worn which necessitates a coat on the wrap style to wear over it. These coat wraps are quite loose and are about seven-eighths length. Collars are immense and may be rolled high or low according to the weather.

Kimono blouses are liked for afternoon frocks, with very short sleeves, fastening at the back, and with oval or square neck line. A jabot like drapery is sometimes applied at the sides of the skirt to give the bouffant silhouette.

We are able to show a large and complete stock, and prices that are very moderate.

**Nine States Visited by Storm to be Aided**

CHICAGO, March 31.—Scattered wire reports say communication to isolated sections of nine states, visited by Sunday's series of tornadoes, today raised the death toll to 165. Reconstruction work in the devastated regions is well under way, with the Red Cross and citizens' committees providing funds for the immediate needs of the sufferers. Estimates of the total damage done range from \$10,000,000 to \$15,000,000. Tabulated reports by states at noon today gave the number of dead as follows:

Indiana, thirty-seven; Illinois, twenty-seven; Ohio, thirty; Michigan, twelve; Georgia, thirty-eight; Alabama, seventeen; Nebraska, one; Missouri, one; Wisconsin, one.

**Whisky Thieves Pose as Government Agents**

LAKE GENEVA, Wis., March 31.—Three whisky thieves, posing as federal prohibition officials, engineered a daring liquor robbery here. They read a "warrant" to the caretaker of the summer home of Frank Rehm, son-in-law of J. B. Grommes of the Grommes and Ulrich liquor company of Chicago and escaped with \$10,000 worth of choice whisky on a motor truck. They were caught several hours afterward at Crystal Lake, Illinois, by the sheriff of McHenry county, according to reports.

**Tornado Victims Are Offered Positions**

BISMARCK, N. D., March 31.—Victims of the recent tornadoes who have had farm experience were offered places on North Dakota farms, in telegrams sent tonight by Governor L. J. Frazier, of North Dakota, to Governor F. O. Lowden of Illinois and Mayor William H. Thompson, of Chicago. The North Dakota immigration department's representative at Chicago will answer communications regarding the plan as will the state department of labor, with offices at Bismarck and Fargo, the governor said.

**It's dollars to doughnuts—**

no man ever smoked a better cigarette at any price!

CAMELS quality, and their expert blend of choice Turkish and choice Domestic tobaccos hand you a cigarette that will satisfy every smoke desire you ever expressed. You will prefer this Camel blend to either kind smoked straight!

Camels mellow-mildness will certainly appeal to you. The "body" is all there, and that smoothness! It's a delight!

Go the limit with Camels! They will not tire your taste. And, they leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

Just compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes for 20 cents; or ten packages (200 cigarettes) in a glassine paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel. R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.
